

## PROJECT GOALS & VALUES:

- Move forward from the Master Plan
- Create an integrated library and community center to:  
*ENRICH / ENGAGE / ADAPT / SUSTAIN*

## SITE PRESENCE:

- Be warm and inviting
- Be designed with a human scale
- Have a strong identity and celebrate its civic role in the community

## BUILDING CHARACTER:

- Be warm and engaging, welcoming the community and drawing people inside
- Be constructed and furnished with quality long lasting materials
- Complement the small town character of the City of Larkspur
- Reflect our time but have an enduring, timeless quality
- Maximize flexibility and be adaptable to change

## BUILDING and LANDSCAPE SUSTAINABILITY

- Be environmentally, economically and culturally sustainable
- Reveal sustainable values in its design to educate the community and promote environmental stewardship
- Aspire to achieve the highest LEED certification that is economically feasible- LEED Silver minimum

## SITE CONNECTIVITY

- Have strong indoor / outdoor connections for program flexibility
- Take advantage of views of Mt. Tamalpais and Blithedale Ridge
- Create convenient and safe connections with downtown, nearby schools and adjacent neighborhoods
