

Removal of Metal Climber Recommended:

- Duplicative play features available on existing play structure
- No unique skill building added by metal climber
- Removal creates abundance of new features not currently available to preschool children

Targeted Skills by Both Play Equipment Pieces

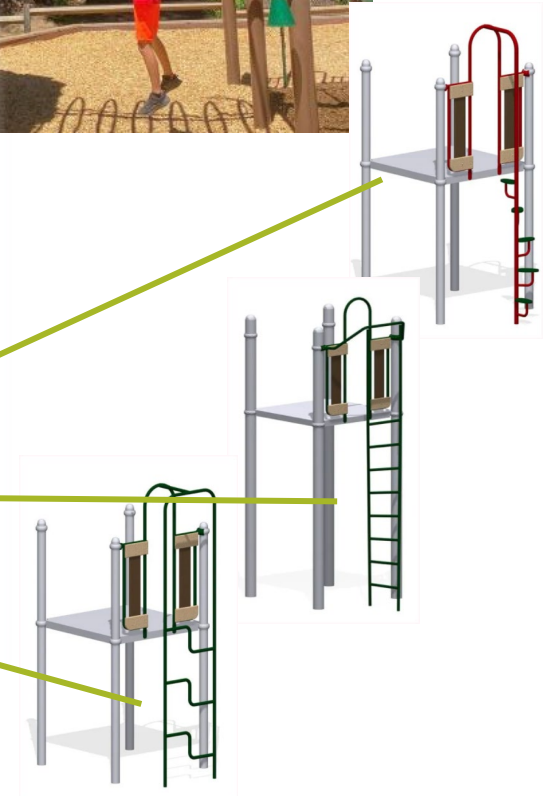

- ☀ upper body strength
- ☀ climbing ability
- ☀ hand-eye coordination
- ☀ balance

Existing Metal Climber

Existing Play Structure

Creation of Tot Play Zone made possible by removal of metal climber

Existing climber removal proposed...
....to create space for new equipment in
new tot play zone
